

# The Ream Report

The latest on all things Kitchens, Bathrooms, Bedrooms, Home Living and Appliances from Ream Interiors...

## Bank Holiday Bonanza!

With bank holiday weekend fast approaching, summer BBQ's and garden parties are probably on the agenda for a lot of you.

Sometimes the end of Summer calls for a freshen up; especially after being in lockdown for the best part of a year. Whether it is a new bathroom with a show stopping bubble bath to go home to after a long day, or a new wine cooler for your kitchen to wow your dinner guests with. Ream will be able to bring your ideas to life and create the perfect room for you and your family.

Give us a call on 02033 880 617, or email us at [design@ream.co.uk](mailto:design@ream.co.uk) to speak with one of our designers.

---

#### WHATS HOT IN THE SHOWROOM?

The Quooker - the original boiling tap and information on their summer promo.

---

VOL. 102

# Interior Of The Month!

## The Smiths' Kitchen

This was a kitchen designed for hosting and parties; the whole room was open plan and the clients really wanted somewhere that would wow their guests and allow them to host with ease. The large island area creates a lovely space for drinks or dinner with friends, whilst the discreet drawers enable them to still utilise the space practically for day to day use.

The Quooker tap is one of the Smith family's favourite additions, and they like it so much they wish they had upgraded to the sparkling water!

*"We were extremely happy with the whole journey with Ream, even though it was through lockdown. Our fitter Nick worked immaculately, and even went round hoovering up after himself!"*

## Fancy your project being featured?

We would love to showcase your projects in our next issue. Simply send your images and project details over to [marketing@ream.co.uk](mailto:marketing@ream.co.uk)

Every entry which is featured will be given a brand new set of AEG pans! We look forward to seeing all your fabulous transformations.

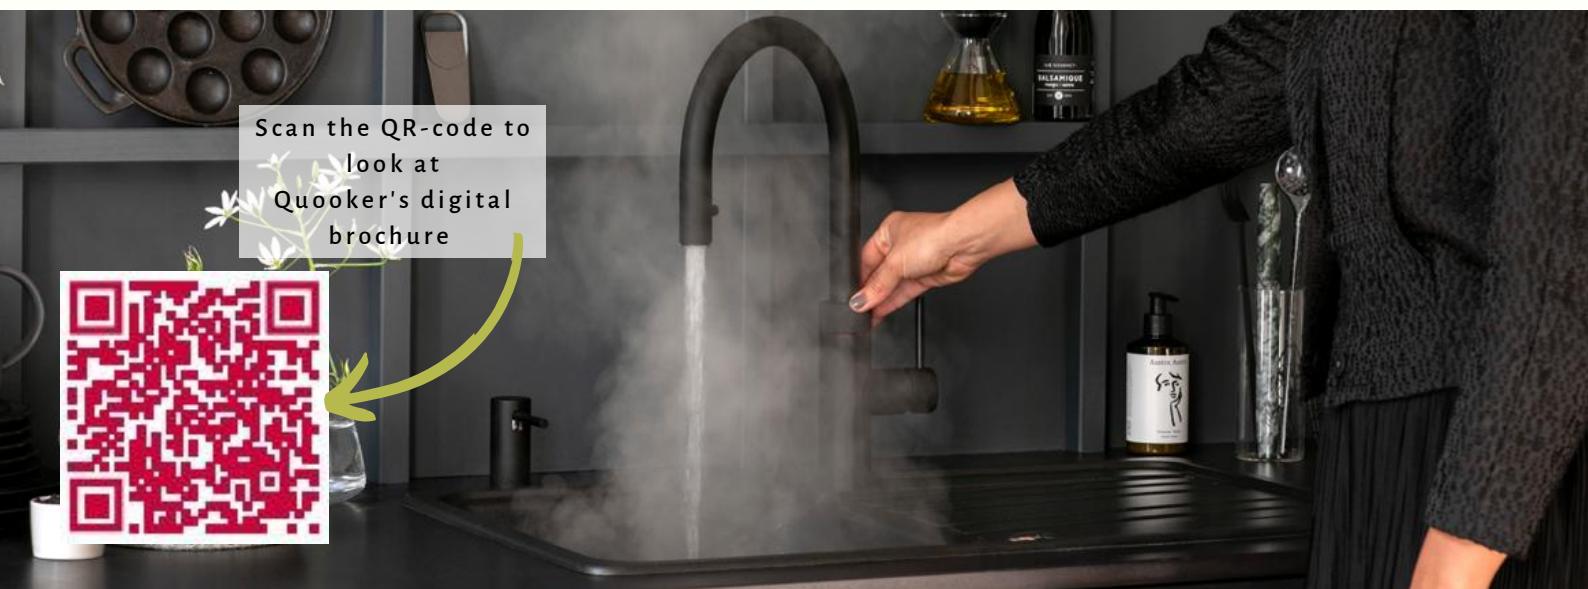

# What's Hot In The Showroom?

## Quooker®

The Quooker tap is the original boiling water tap, it instantly produces true 100 degrees boiling water at the push and turn of a button. Quooker's most basic design is the Nordic single which only dispenses boiling water and is intended to be used alongside a normal mixer tap.

Other styles combine the properties of both a mixer and boiling water tap. Models installed with the CUBE offer the ability to produce perfectly chilled still and sparkling water as well as 100 degrees boiling water. Quooker taps are known for their quality, safety and efficiency.

Quooker are currently running a promotion where they will install the new CUBE free of charge when you purchase an upgrade of your current Quooker tap. For more information call the showroom on 02033 880 617.

## Things To Consider When Choosing A Fitted Bedroom

Fitted bedrooms offer a convenient and stylish way to maximise your space, keeping your bedroom clutter free and perfect for relaxing. There are some considerations to bear in mind when choosing a fitted bedroom to ensure the design meets your budget. This article will help to explain these considerations so that you can decide if a fitted bedroom is right for you.

## What Exactly Is Fitted Furniture And Why Should You Consider It In Your Bedroom Design?

Fitted furniture is usually inbuilt from wall to wall and floor to ceiling, making use of space that would simply be lost with free-standing furniture. Fitted furniture can be custom built to fit perfectly around awkward bedroom features such as chimney breasts or sloping ceilings, where traditional free-standing furniture might not fit.

### Hinges Or Sliding Doors

There are two main styles of fitted bedroom, hinged door construction or sliding door systems.

Hinged doors operate similarly to traditional wardrobes where the door opens into the room.

Sleek and modern styles are available as well as more traditional shaker and country doors, allowing you to personalise the look of your bedroom perfectly. Unfortunately, this style has some practical restrictions. You must ensure you leave enough space to allow access around the open doors.

Sliding doors are a superb and innovative concept for maximising storage and functionality. They are incredibly convenient to use as the door easily slides open along a track system. The sliding mechanism is perfect for a small room.

### A Range Of Finishes And Looks

There are a wonderful range of colours and finishes to suit both classic and modern designs. Simple matt colours offer timeless and understated sophistication.

Gloss finishes can bring a lightness to any room and will look beautifully sleek and contemporary for years. With sliding doors, you have the option to choose the number of panels each door has, therefore offering you the opportunity to mix and match between gloss, matt and even wood.

There are many considerations that contribute to the success of your new fitted bedroom, it is important to give these some thought in order to find a cost-effective solution that suits your needs. Our friendly and experienced team at Ream Interiors are happy to offer their advice and answer any questions about your fitted bedroom project.

# In The Know...

## The Outdoor Life

Outdoor kitchens are definitely in demand at the moment. With the majority of us being home for the best part of 2020/2021 we've found a new love for our homes and gardens.

As a result, homeowners are looking to have their very own alfresco kitchen. Not only to ensure their gardens are better equipped for the outdoor gatherings they've grown to love, but also to emulate the laidback dining of those holiday destinations they are very much missing.

From a simple bar to a fully built-in outdoor kitchen with BBQ and dining area, the spaces can be pretty impressive! For a fully working outdoor space, you'll need gas, electricity, water and also should consider shelter to keep everything protected.

Another way to bring the outdoors in is to use bi-fold doors. They help to create a seamless flow to the outside and will let light in all year round!

### Did you know we can change your old appliances?

In any loved kitchen there will be appliances which will become dated; we know replacing them can be a bit of a chore, so we are going to make this easy for you!

If you have previously bought a kitchen with us before, we can easily find your old project and recommend new ones to suit both your needs, budget and style. Give us a call to find out more!

# Ex-Display Offers

Prices too good to miss!

Discover some of our gorgeous ex-display products, ready to be installed in your home at a fraction of the price...
