Ream in the Spotlight

Ream Interiors Designer Shortlisted for Signature Spaces Award

Award Recognition

We're proud to share that **Lucy Gentle**, designer at Ream Interiors, has been nominated for the 'Signature Spaces' award at the prestigious KBSA Designer Awards 2025. This is a true celebration of her skill and vision in interior design. Keep an eye out, as the results will be announced soon!

The nomination celebrates Lucy's work on this beautiful Sewing Room, an inspiring project that blended creative passion with thoughtful design. Creating a space that balanced beauty and function meant focusing on the finer details. Careful attention was given to lighting, with layered illumination keeping the room bright and welcoming during long sewing sessions.

Storage was key. Every drawer, shelf and cupboard was custom-designed to suit specific tools and materials, reducing clutter and improving workflow. The result is a space that not only reflects the personality of the owner but also supports her craft with elegance and ease.

This project is a testament not only to Lucy's design expertise but also to the dedication and craftsmanship of the entire Ream Interiors team. It reflects our shared commitment to creating beautiful, functional spaces that enrich our clients' everyday lives. We're proud to see this work recognised and excited for what's to come!

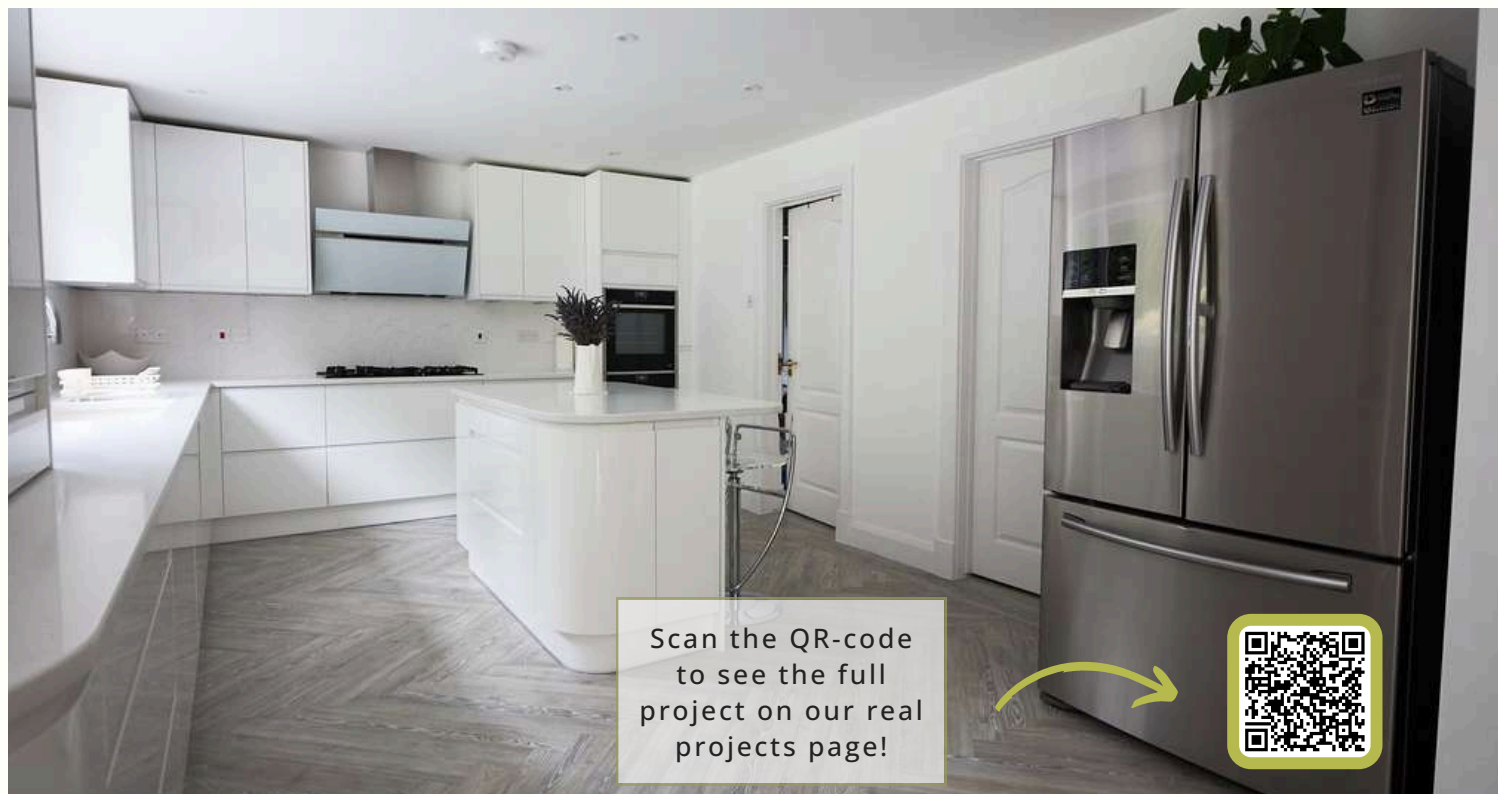

Interior Of The Month!

Mr and Mrs Lee sought to transform their outdated, dark walnut kitchen into a bright, welcoming space that better reflected their lifestyle. Collaborating closely with our design team, they created an open-plan kitchen-dining area that combines functionality with style. The result is a versatile social hub that perfectly balances practicality with an inviting atmosphere, tailored to their passion for cooking and entertaining.

The integration of the former kitchen and dining room has brought a light, airy ambiance to the heart of their home. Crisp white gloss cabinetry enhances the sense of space, while quartz countertops reflect natural light, creating a seamless and radiant finish. This thoughtful design, paired with warm wooden flooring, combines modern elegance with comforting warmth, fulfilling the Lees' vision for a clean yet homely space.

The chrome Quooker Pro3 Flex tap brings sleek style and practical function to the kitchen. We designed a bespoke cabinet to house Mr Lee's coffee machine alongside his curated selection of premium blends, ensuring the space perfectly supports their daily routine.

“

‘As a popular host for all different types of events with friends and family as well as charity events, opening up the space would create a social and inviting area. Now, their kitchen is not just for cooking but also for spending time together. It’s a place where style and usefulness combine, making it perfect for both cooking and enjoying company.’

Why Choose a Ream Wet Room?

Summer is the perfect time to elevate your home. With warmer days and a natural focus on renewal, it's an ideal season to invest in thoughtful upgrades, starting with your bathroom. A wet room offers the perfect blend of luxury and practicality, whether you're creating a calming retreat or enhancing the long-term function of your home.

Here are some key design ideas to inspire your wet room project, based on what makes them such a smart and lasting choice... You can explore more on our dedicated wet room page — just scan the QR code to take a closer look!

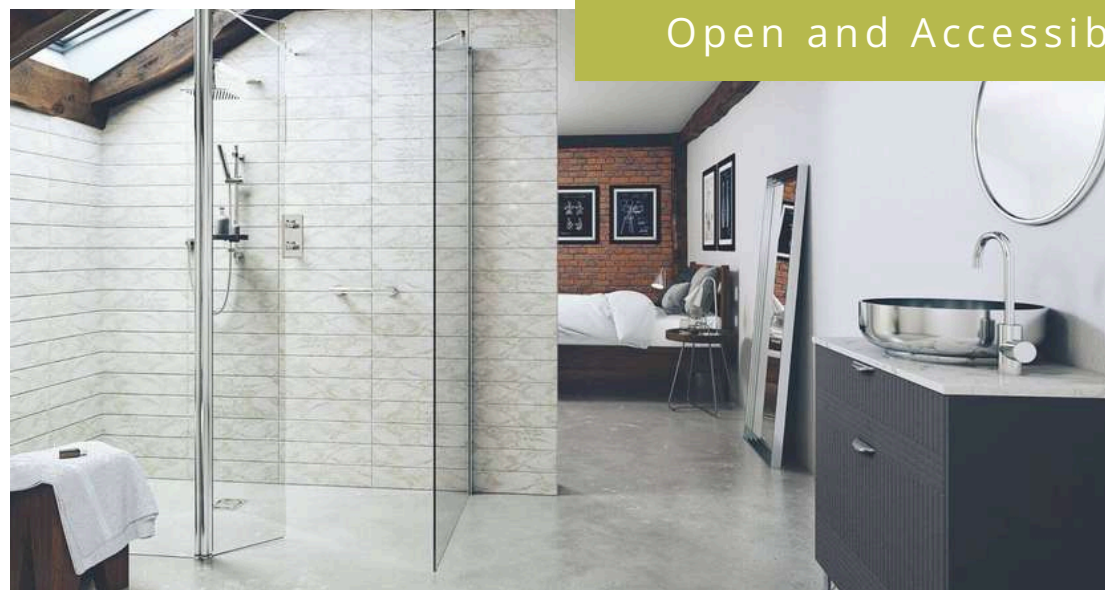

Effortless to Maintain

With fewer joins, frames, and corners, wet rooms are easier to clean, maintain, and stay looking pristine over time.

💡: *Large-format tiles reduce grout lines for a sleek, low-maintenance finish that's easier to clean.*

Open and Accessible by Design

Wet rooms provide seamless, step-free access, making bathrooms safer and more comfortable at any age.

💡: *Pair non-slip tiles with underfloor heating for safety and comfort without compromise.*

Smart Use of Space

Ideal for compact bathrooms or large ensembles, wet rooms maximise usable space and enhance the flow of your room.

💡: Use clear screens or clever tile zoning to define the shower without closing it off.

Tailored to *You*

Every Ream wet room is designed around your lifestyle, with expert planning and thoughtful features built in.

💡: Recessed storage and wall-mounted fittings create a clean, functional space without clutter.

Luxury That Lasts

A professionally designed wet room adds timeless value and a spa-like feel to your home.

💡: Choose premium fixtures like a rainfall shower or recessed niche for a lasting, elegant finish.

Ready to transform your bathroom? Get in touch at design@ream.co.uk or call **01634 799 910** to start planning your perfect wet room and receive a free design consultation and quote!

What Our Customers Say...

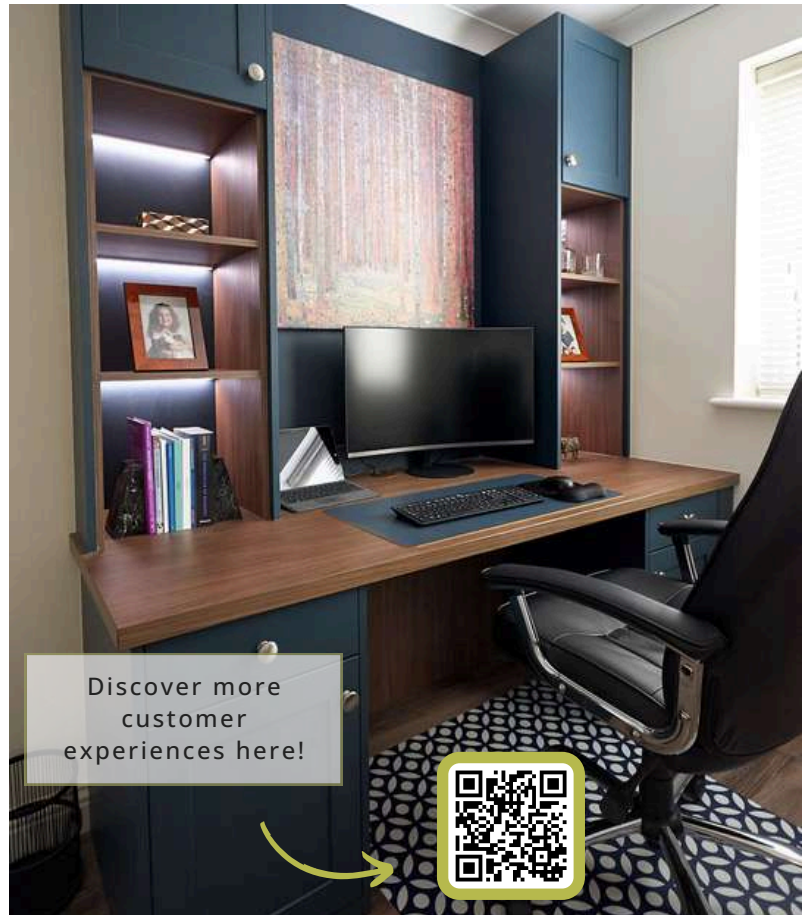

Modern Multifunctional Home Office

Mr and Mrs Kerslake approached Ream Interiors looking to transform a spare room into a multifunctional home office that could serve both work and lifestyle needs. They were highly impressed with the finished result, praising Ream for perfectly capturing their vision.

The Kerslakes praised the experience from start to finish, highlighting the collaborative approach, professional team, and smooth project management. Ream's attention to detail and ability to deliver practical, elegant solutions made the process enjoyable and stress-free.

“

“In a compact section of the room, we designed an elegant and striking office setup that includes ample storage and drawers... To maintain the room's dual functionality and aesthetic appeal, we decorated the remaining space in a way that complements the office area. This approach not only ensures a professional backdrop for video calls but also creates a pleasant and cohesive ambience, making it an inviting place to work from home.”

Celebrating the International Child Safety Week

Child Safety Week, led by the Child Accident Prevention Trust, is a national campaign that raises awareness of the risks children face in everyday environments—and how small changes can prevent serious accidents. The kitchen, being the heart of the home, is also one of the most hazardous for little ones.

As designers, we can make a big impact by choosing appliances that combine function, style, and built-in safety. Here's how our trusted partners help make family kitchens safer for children:

AEG Ovens & Induction Hobs

- **Child Lock Function:** Prevents accidental operation by locking the control panel.
- **Automatic Switch-Off:** Shuts off the appliance after a set period of inactivity, reducing fire risks.
- **CoolTouch Doors:** Keeps oven exteriors cool to the touch, minimising burn hazards.
- **Cooling Fans:** Activate during use to maintain safe surface temperatures.

Bora Induction Cooktops

- **Child Safety Lock:** Prevents the cooktop from being switched on unintentionally.
- **Residual Heat Display:** Indicates when cooking zones are still hot, reducing burn risks.
- **Automatic Heat-Up Function:** Quickly heats to the desired temperature, then reduces power to prevent overheating.
- **Pan Size Recognition:** Ensures energy is directed only to the appropriate cookware, enhancing efficiency and safety.

Caple Built-In Ovens

- **Child Lock Function:** Disables controls to prevent little ones from accidentally turning the oven on.
- **CoolTouch Doors:** Multi-glazed doors stay cool on the outside, even during high-temperature cooking, reducing burn risks.
- **Safety Cut-Out:** Automatically turns the oven off after prolonged inactivity, ideal for busy households.
- **Soft-Close Doors:** Gently shut to avoid loud slams and protect small fingers.

NEFF Ovens & Induction Hobs

- **Slide&Hide® Doors:** Oven doors that disappear beneath the oven, reducing the risk of burns and saving space.
- **Quadruple Glazed CoolTouch Doors:** Keep the oven exterior cool to the touch to minimise burns.
- **Child Lock Function:** Prevents accidental use.
- **Residual Heat Indicators:** Warns when zones are still hot, helping avoid burns.

Quooker Taps

- **Childproof push-and-turn control:** Prevents accidental activation by little hands.
- **Insulated spout:** Stays cool to the touch, reducing burn risk.
- **Fine spray:** Minimises the chance of scalding by diffusing the water flow.
- **No need for a kettle:** Removes the risk of exposed cords or hot appliances on worktops.

Helping You Build a Family-Safe Space

For personalised advice on choosing child-safe appliances and designing a family-friendly kitchen, call **01634 799 909** or email **design@ream.co.uk** — we're here to help you create a space that's as safe as it is stylish.

Cook it with **AEG**

Sausage Salad with Sweet Potato and Walnuts

- Prep time: 10 mins
- Cooking time: 30-40 mins
- Serves: 2

ingredients

- 2 beef sausages (or your favourite veggie variant)
- 200 g sweet potato
- 75 g salad mix
- 1 onion
- 1 handful of walnuts
- 2 tbsp Dijon mayonnaise (or 1 tbsp mayonnaise mixed with 1 tbsp mustard)

directions

- Wash the sweet potato and cut it into small cubes. Peeling is optional! Slice the onion into thin rings.
- Place the sweet potato cubes on a baking tray lined with parchment paper, drizzle with a little olive oil, and season with salt and pepper. Roast the sweet potatoes in the steam oven for 20-25 minutes at 180°C low steam.
- While the sweet potatoes are roasting, heat a little oil in a frying pan over medium heat. Cook the sausages for 10-12 minutes until golden brown. You can also fry the onion rings until soft and caramelised.
- Roughly chop the walnuts and toast them in a dry pan until lightly coloured and crispy.
- Assemble the salad by placing the salad mix on two plates. Top with the roasted sweet potatoes and caramelised onion rings. Slice the sausages and place them on the salad.
- Mix the Dijon mayonnaise with a splash of extra virgin olive oil and drizzle it over the salad. Finish with the roasted walnuts and an extra pinch of salt and pepper.
