Interior Of The Month!

Mr and Mrs Davies set out to create a kitchen that blends timeless elegance with a fresh modern edge. Working closely with our design team, they envisioned a space that feels refined yet welcoming, combining classic shaker cabinetry with contemporary finishes. At the centre sits a spacious island, designed as both a striking focal point and a hub for family life and entertaining.

The soft neutral cabinetry lays a calm foundation, enhanced by marble-effect quartz worktops that reflect light beautifully. A statement island, finished in a deeper contrasting tone, anchors the space with generous storage and seating. Brushed gold taps, brass handles, and soft upholstered stools introduce warmth and character.

Every detail was thoughtfully crafted, from integrated appliances and hidden storage to layered lighting that adds depth and atmosphere. The result is a kitchen that balances everyday functionality with a relaxed sense of luxury, perfectly suited to modern living.

“We absolutely loved designing this kitchen. The contrast of Porcelain and Graphite cabinetry, paired with the Calacatta Gold quartz and walnut accents, gave us such a rich palette to work with. Bringing these materials together to create a space that feels elegant, practical and full of character was a real pleasure from start to finish.”
